describe  
your data practice

what does it mean to  
**do no harm** in technology?

as a data practitioner, what's  
the **most common ethical  
concern** you encounter in  
tech projects?

what's the most important  
**data ethics issue** for you?

as data practitioners,  
what are our mechanisms for  
**check and balance?**

what's the limit?  
where do we draw the line?
