- Any insights on the Lesson 2 case studies?

lesson 3 intro

- Describe the nature of ethics in journalism;

- Elaborate the importance of data access and privacy; and

- Identify some ethical issues and challenges in big data and data journalism.

migs cabral

chief software architect, amihan global strategies

What does it mean to

do no harm?

why do we have to talk about ethics?

nature of ethics

- Morality

- Values

- Norms

the paradox of self regulation

	Private	
y		n
n	Medical records of private citizens	What a celebrity had for lunch
Right to know		
y	Offshore accounts of public officials	SALN

What makes it

a public concern?

big data and ethics

- Consent
- Agency
- Transparency
- Buckets and groups
- Representation and bias
- Surveillance and virtues
- Privacy
- Centralization and consolidation

lesson 3 q's

- What are the key ethical considerations in practicing data journalism in devcom context?

- As a data subject, how would you define your rights e.g. privacy, bias?

- What do you think are the promises and pitfalls of big data when it comes to the marginalized sectors?

questions?
clarifications?

next week

- Lesson 4 released @ Github
